

# Acknowledgments

First of all, we are grateful to Seagate Technology, Pittsburgh, PA, USA, for supporting some of the research that lead to this book. Many discussions, especially with Dr. M. Fatih Erden, Dr. Inci Ozgunes, Dr. Erozan M. Kurtas, Dr. Jongseung Park, Dr. Alexander V. Kuznetsov, Dr. Walter R. Eppler, and Dr. Xueshi Yang have been invaluable and stimulating.

We would also like to thank the Thai government for its financial support during my Ph.D. study (2000 – 2004), and Hard Disk Drive Institute (HDDI), National Electronics and Computer Technology Center (NECTEC), National Science and Technology Development Agency (NSTDA), Thailand.

Finally, special thanks are given to Dr. Steven W. McLaughlin, Aravind R. Nayak, Badri Varadarajan, Pornchai Supnithi, Joon Hyun Sung, Renato da Rocha Lopes, and others in the Communications and Information Theory Laboratory at Georgia Institute of Technology, Atlanta, GA, USA. These people had engaged us in many discussions and helped bring understanding to many research questions.
